

# HORTICULTURAL VINEGAR

## WEED CONTROL

### What is Horticultural Vinegar?

- A liquid herbicide for non-selective vegetation control containing concentrated acetic acid.

### Features of Horticultural Vinegar

- 20% Acetic Acid Solution
- Registration # 30482 Pest Control Products Act
- Controls Weeds

### Applications of Horticultural Vinegar

- Most effective when spraying during warm, sunny weather onto young and newly established weeds.
- Older perennial weeds may require multiple treatments.
- Best used in dry conditions. Rain or watering will dilute the product reducing its effectiveness.
- Be cautious of overspraying onto nearby plants.
- Commonly used for spot spraying on lawns, gardens, sidewalks, driveways.
- Controls annual weeds such as Black Medic, Chickweed, Lamb's-quarters and Ragweed.
- Controls perennial weeds such as Clover, Dandelion, Plantain, and wild carrot.

Available in 20 L Jugs or 205 L Drums
